I make a motion that the below statements be adopted as our mission, vision, and values:

Mission: Create an inclusive, affirming, and supportive educational environment for self-directed learners of all ages, abilities, and neurotypes.

Vision: Foster a community where everyone can thrive through personalized learning, collaborative projects, and active involvement. By supporting underserved populations, we empower *all* learners to discover their passions, develop their skills, and reach their full potential in a safe and nurturing environment.

Values: agency, consent, curiosity, felt safety, place, respect, relevance, self-direction

I, Amber Crews, vote Yes to this motion.

Thank you,

Amber

I would really like to see bipoc, lgbtq+ and neurodivergent listed somewhere in our vision.

1. It will weed out some people who we don't want participating in our program.
2. It sets us apart from other "incisive" organizations that say they're incisive but not really.
3. Looks amazing for grants.

Is there a way to do it that doesn't make it look like a tag line? So we just leave the vision and explain more about fully integrate classrooms?

Is this too much:

By supporting underserved populations, specifically LGBTQ+, BIPOC & Neurodivergent students, *we empower all learners to discover their passions, develop their skills, and reach their full potential in a safe and nurturing environment.*

I have mixed feelings about it all. I sent it to some close friends to get opinions.

Mission: Create an inclusive, affirming, and supportive educational environment for self-directed learners of all ages, abilities, and neurotypes.

Proposed new wording to the Vision statement:

By supporting underserved populations, specifically LGBTQ+, BIPOC & Neurodivergent students,

We facilitate our learners in self empowerment to discover their passions, develop their skills, and reach their full potential in a safe and nurturing environment.

I, Jillian Schoenherr, vote yes to the mission and vision as stated above with the revised wording in the vision statement.
